The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed _____ cubic feet per second.

Actual construction work shall begin on or before _____

Proof of commencement of work shall be filed before _____

Work must be prosecuted with reasonable diligence and be completed on or before _____

Proof of completion of work shall be filed before _____

Application of water to beneficial use shall be made on or before _____. Proof of the application of water to beneficial use must be filed with State Engineer on or before _____

WITNESS MY HAND AND SEAL this _____ day
of _____

State Engineer.

BEFORE THE STATE ENGINEER OF THE STATE OF NEVADA.
APPLICATION FOR PERMISSION TO CHANGE POINT OF USE.
.....

Date of first receipt and filing in State Engineer's Office SEP 26 1919
Comes now the undersigned, Louis Saroni, of San Francisco, State of California, and hereby makes application to change the place of use of waters heretofore appropriated and beneficially used as hereinafter set forth.

In connection with said application petitioner respectfully sets forth the following facts, to-wit:

1. That petitioner is now the owner of and in possession of all that certain water right as described in that certain judgement and decree in the United States District Court of the State of Nevada, case No. 731, entitled Pacific Live Stock Company vs. T.B. Rickey, et al, and on page 49 of the said decree. That the said right as therein set forth is for 9.60 second feet with a priority dated 1877, said water being appropriated and beneficially used from the West Fork of the Walker River; that the petitioner owns all of the said land and the said water right.
2. That under and by virtue of the said decree herein referred to this petitioner is entitled to legally change the manner, means, place or use or point of diversion of the said waters or any of the same thereof. That said right is independent of any right for such purpose as fixed under the statutes of Nevada thereafter passed, to-wit, since 1877, but petitioner desires to make the said 9.60 second feet of water and the right to use the same appurtenant to particular legal subdivisions comprising in all 960 acres; that part of the said 960 acres is included in the description as set forth on page 49 of said judgement and decree while the remainder is adjacent land. That the said Judgement and Decree of the United States District Court is hereby referred to and specifically made a part of this petition the same as if set forth in full.
3. The source of the water supply proposed to be changed is the West Walker River.
4. The quantity of water desired to be changed is 9.60 cubic feet per second.
5. Water is to be used for irrigation, domestic and stock watering purposes.
6. The water will be diverted at the same point now and for many years last past used and will flow through the same ditch and the said point of diversion is on the West Walker River, described as follows, to-wit: NW $\frac{1}{4}$ of NW $\frac{1}{4}$, Section 15, Township 10 North, Range 23 East, M.D.M.
7. The water hereby desired to be changed has been beneficially and continuously used upon that 4700 acres of land, more or less, as described in the judgement and decree heretofore referred to and on page 49 thereof.
8. That all of the said water was used for domestic, irrigation and stock watering purposes and that more than 600 acres of land were irrigated.
9. That petitioner proposes to irrigate 960 acres of land with the said water described as follows, to-wit: S $\frac{1}{2}$ of NW $\frac{1}{4}$ and SW $\frac{1}{4}$ of Section 29, NW $\frac{1}{4}$ of Section 32, E $\frac{1}{2}$ of SW $\frac{1}{4}$, W $\frac{1}{2}$ of SE $\frac{1}{4}$, Section 32, Tp. 11 N., R. 24 E. E $\frac{1}{2}$ of Section 5, N $\frac{1}{2}$ of NE $\frac{1}{4}$, Sec. 8, Tp. 10 North, Range 24 E.
10. That the ditches, canals and flumes necessary to carry the water to the said land have been completed and the cost of the proposed works except the clearing and preparing of the land is nominal.
11. That the estimated time required to construct the works is thirty (30) days. That the petitioner desires two (2) years in which to beneficially apply the water.
12. Irrigation will begin about March of each year and end about November.
13. The said water has heretofore been used during all the months of the year for the purposes as hereinbefore applied for and set forth.
14. That petitioner further sets forth that he desires that the change as herein referred to be made appurtenant to the 960 acres described herein and that the permission as requested be granted.

That petitioner anticipates beneficially applying water to the land on which the said water is now being applied under what is known as Permit No. 1363, and that it is desirable to have made certain and appurtenant to particular land the right as fixed under the said judgement and decree and now held by the petitioner so that the other portions of the

land owned by petitioner may prove up under that certain permit known as No. 1663, granted by the State Engineer of the State of Nevada, or by other rights as may be found necessary.

That petitioner further sets forth the said change as requested will not interfere with any other right or rights or any other water users on the said stream.
